

Medismart

THE FUTURE OF MEDICAL WASTE MANAGEMENT

Medical Waste solution designed to protect people, reduce landfill and ensure compliance.

The Daniels reusable Medismart system sets new standards in infection control, environmental effectiveness, logistical cost savings and compliance. Evolved from the industry leading Sharpsmart system, the engineered design adds a professional edge to any healthcare environment; its inbuilt locking mechanisms protect patients and dental practitioners, its ease of access is intuitive and safe, and its small footprint optimizes space and maneuverability in tight spaces or high traffic areas.

“

The Washsmart cleaning process was independently tested by coating Medismart bins with 6-log blood-suspensions of Staph. Aureus and E. Faecalis. On swabbing them after the wash, no challenge organisms were detected - This is a very high level of decontamination.”

Terry Grimmond
Microbiologist | FASM, BAgSc, GrDpAdEd

MEDISMART REUSABLE CONTAINER

- Dramatically improves segregation
- Reduces infection risk
- Inbuilt secure locking systems
- Safe foot-pedal operation
- Leakproof body and lid seal

MEDISMART REUSABLE CONTAINER ▶

H: 27" x **W:** 16" x **D:** 14"
Nominal capacity: 16.9 gal
Effective capacity: 14.8 gal

Capacity: 30 gal

Compliance.

Understanding the complexities of local, regional and national regulations, Daniels Health positions itself as an astute partner in delivering reliable guidance and compliant waste segregation and management solutions. Our operational and compliance teams ensure that each healthcare facility we work with is fully compliant to all local and federally mandated regulations, working with you to mitigate the risk of fines and infringement penalties.
